

# COIN

## Criminal Online Images Now

Expansion of the Clerk of Court and Comptroller access to online court case information and images.

# Miami-Dade Clerk of the Court and Comptroller Online Access

- Online access to court information and images for Civil, Family, and Probate cases was implemented in 2015 and agencies have had access to online images in accordance with the Florida Supreme Court security matrix. This was accomplished by accessing images of documents that were scanned into the Odyssey court case management system.
- In April 2023, we expanded the online accessibility to include Traffic case information and images. This was achieved by accessing images that were scanned into the SPIRIT court case management system.
- In September 2023, we expanded the online accessibility to Criminal case information. Since CJIS is still a paper based system, in order to provide access to criminal images we have utilized images previously received through the ePortal, and through the Criminal Filing Application that is being used to provide images to be ingested into Benchmark.

# ONLINE CASE SEARCH

- The current Online Case Search applications access are tied to the State of Florida Technology Standards and the current Active Security Matrix (ASM) designating the roles and permissions allowable for viewing of court records.
- Currently COIN only allows the attorney of record, SAO, and Judges access to images.

# CRIMINAL IMAGES ON THE WEB

## Functionality Overview

- Expanded functionality within the existing in-house developed On-Line Case Search (OCS) applications will provide additional access to available Felony and Misdemeanor Court case types.
- Criminal Case information and associated eFiled and scanned documentation including recorded documents will be available for viewing. In the future Case information and available images for Felony, Misdemeanor and Branch cases that are not sealed or expunged will be returned based on the Access Security Matrix (ASM) role for viewing rights.
- Felony eFilings since May 2020, and Misdemeanor eFilings since June 2021 will be available for viewing online, in addition to documents scanned through the Criminal Filing Application.

# CRIMINAL IMAGES ON THE WEB

## Information Available

- The following case information and available documents will now be made available online for the Attorney of Record, the State Attorney's Office and Judges:
  - Arrest Form / Arrest form summary
  - Demand for Discovery
  - Notice of Appearance(s)
  - Judge Orders / Motions
  - Case Information Filed through ePortal
  - Pleas, waivers, dismissals
  - Final Judgments
- Ability to view defendant Payment Plan information (*as applicable*).
- Purchase of criminal certified copies online.

# REGISTRATION REQUIRED

- The Online Case Search application is tied to the roles and permissions outlined within the ASM. Users who **Register** will be able to view the documents and associated images based on their role at no cost.
- Users who access information under “Anonymous” will have the least amount of information available. Therefore, it is encouraged that users register to ensure they can view applicable documents and images as defined within the ASM.
- The ‘Attorney of Record’ role will be determined by comparing the bar number of the logged-on attorney to the bar number of the defense attorney in the criminal case being sought. If the bar numbers match, the logged-on attorney is the attorney of record and will have access to all images available for the case. If not, the logged-on attorney will be considered a regular registered user and will only have access to images of recorded documents.

As recommended by the Florida Courts Technology Commission and to facilitate appropriate differentiated levels of access to court records, the Florida Supreme Court has adopted Standards for Access to Electronic Court Records and an Access Security Matrix.

Access Security Matrix																					
(January 2023 v13)																					
User Role (Subscribers)																					
Key to access codes		1. Judges and authorized court and clerk's office personnel including personnel of The Florida Bar (internal access by authorization)															***VOR Statute List (F.S.): 787, 794, 796, 800, 825, 827, 847, 921.244 VOR is at the case level				
A = All but expunged, or sealed under Ch. 943, F.S.																	***Viewable on Request (VOR) - to ensure that information is properly removed prior to public access, some case types and document types have a special electronic security called viewable on request. Selecting an image of a court document in cases or documents coded viewable on request will not allow the user to view the record at that point. Instead, a request is generated to a clerk, who performs a second examination of the document to remove personal identification information and information about the victims of sexual or child abuse crimes. After the clerk has completed, the requestor then receives a notice that the document is available for viewing. Once a document has been requested and reviewed, it is available for all future access without requiring a request/review.				
B = All but expunged, or sealed under Ch. 943, F.S., or sealed by court order																					
C = All but expunged, or sealed under Ch. 943 or confidential under Fla. R. Gen. Prac. & Jud. Admin. 2.420, or by court order																					
D = All but expunged, sealed or confidential; record images viewable upon request																					
E = Case number, party names, dockets only																					
F = Case number and party names only																					
G = Case number only																					
H = No access

Your registration has been completed!

Keep in mind that advanced searches of Official Records requires you to [purchase units](#).

The Miami-Dade Clerk of Courts provides Internet Public Viewing in accordance with the provisions of the current version of the [Florida Supreme Court Standards for Access to Electronic Court Records and the Access Security Matrix \(ASM\)](#). This Administrative Order sets standards for viewing of electronic court records and requires that users having access to specific types of records submit a notarized Access Request form to ensure identity.

If you are NOT an attorney and DO NOT work for an agency as identified in the Access Security Matrix, you are now able to search for cases using the Advanced Search button and view cases as provided in the ASM as a Registered User. A notarized form is no longer required.

If you are an attorney or work for an agency as identified in the Access Security Matrix, you will need to submit the **ACCESS REQUEST FORM**. The form is pre-populated with the information from your user profile. If any of the information shown in the form is incorrect, please close the form, update your information accordingly within the Account Management link and re-open the form. The form must be printed and notarized before either mailing it to the address located on the form or scanning and uploading it. You will receive an email once your form has been accepted, confirming that your access has been enabled.

In order to complete **REGISTRATION OF YOUR GOVERNMENTAL OR OTHER AGENCY**, please complete the form with the primary gatekeeper's contact information, notarize it AND have it signed by your agency's chief before sending it to the Clerk's Office via one of the two addresses listed. Please note that the primary gatekeeper will not be able to create new users for your agency until the form is processed by the Clerk's Office.

The current version of the Standards for Access to Electronic Court Records does not restrict viewing of County Recorder Official Records. As a Registered User, you will continue to have access to Advanced Searches of County Recorder Official Records without having to submit the above mentioned form.
